

# 2 in 1 SOLAR POWERED LIGHT

## HOW YOUR SOLAR POWERED LIGHT WORKS

- During the day, the solar panel converts sunlight into electrical energy and stores it in the built-in rechargeable battery.
- At night, the stored energy powers the light, which can be switched on or off using the remote control.
- The light is powered by a 1.5V AA battery, which is included in the package.
- The light is powered by a 1.5V AA battery, which is included in the package.
- The light is powered by a 1.5V AA battery, which is included in the package.
- The light is powered by a 1.5V AA battery, which is included in the package.

## CHOOSING A LOCATION

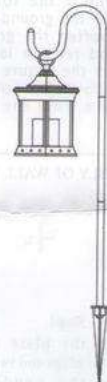

- Choose a location where the light will receive plenty of sunlight during the day.
- Avoid locations where the light will be shaded by trees or buildings.
- The light should be placed in a location where it will be easily visible at night.
